INVENTORY HIGHLIGHTS

1853 PCGS MS-67 Red (Braided) Large Cent PCGS/NGC Population: 1/0
A phenomenal specimen which has survived 150 years unblemished and remains unequaled in nearly 9 years of PCGS & NGC certified grading. Full, blazing lustre above bright-red color and sharply struck devices. An incredible rarity! **$15,900.00**

1866 (Rays) PCGS MS-66 Shield Nickel PCGS/NGC Population: 3/1
An exceedingly rare two-year Type issue. A pale, original hint of golden color rests upon sharp devices and beautiful fields. You'll get a lot of rarity, desirability and importance for the price **$6,250.00**

1921 PCGS MS-65 (Full Bands) Mercury Dime PCGS/NGC Population: 27/13
A thrilling, bright-white representation of this tough date. Could easily pass with an MS-66 label on it. Loads of activity in better-date 20th century material these days **$3,650.00**

1939-D PCGS MS-69 (Full Bands) Mercury Dime PCGS/NGC Population: 8/0
It is indeed a rare occasion when a coin is awarded the grade of "perfection" which is exactly what we offer here. Stunning array of rainbow colors atop vibrant lustre and technically perfect strike and surfaces. **$4,950.00**

1875 PCGS MS-65 Twenty Cent Piece PCGS/NGC Population: 13/7
A better date in a classic, short-lived series. Wonderful, fully-brilliant surfaces with a touch of original golden hue. Displays slightly-prooflike surfaces and sells for just a small premium over the most common San-Fran example. **$5,100.00**

1862 PCGS MS-66 (No Motto) Seated Liberty Quarter PCGS/NGC Population: 4/2
Speckles of sea-green and brighter orange highlight the obverse with a similar combination on the reverse. Fresh, well-struck devices and surfaces virtually free from detractions. A significant rarity at a super price **$6,350.00**

1917 PCGS MS-67 (Full Head) Standing Liberty Quarter PCGS/NGC Population: 6/2
Amazing, pure-white surfaces with cascading lustre. This specimen of one of our nation's most interesting and controversial design-types is the epitome of quality. An outstanding example **$7,850.00**

1908 PCGS PR-68 Barber Half PCGS/NGC Population: 3/0
Emerald green, sapphire blue and shimmering rose hues beautifully adorn the obverse while the reverse remains a brilliant cameo. A superb match to a 1908 Proof Quarter which is also available through our offices. This example was probably worth $40,000.00 just six years ago **$12,500.00**

1934-S NGC MS-66 Walking Liberty Half PCGS/NGC Population: 21/12
Exceptional strike and appearance. A wonderful rainbow encircles the periphery - framing a brilliant center. An important, elusive date in this popular series **$4,875.00**

1883-S PCGS MS-65 Morgan Dollar PCGS/NGC Population: 5/4
One of just five specimens to earn this certified grade. However, the most impressive attribute to this example is its radiant, snow-like surfaces drenched in lustre. This is certainly one of the most coveted dates in the Morgan series and certainly a rare buying opportunity .... **P.O.R.**

1922-S NGC MS-66 Peace Dollar PCGS/NGC Population: 4/3
Without a doubt, one of the sharpest strikes we've seen on any 'S' mint from this increasingly popular series. Superb, snowy surfaces with loads of lustre **$4,950.00**

1914 PCGS MS-65 $20 Saint Gaudens PCGS/NGC Population: 8/1
We'll challenge anyone to match the quality of this rare-date example. A pristine piece with superb strike, superior lustre and no distractions. Must be one of – if not thee finest examples known **$10,950.00**

Alabama (2x2) Commemorative PCGS MS-66
Awash in a pleasing golden hue. One of the rarest of all silver commems in one of the finest conditions. An outstanding example with super eye appeal **$7,250.00**

Oregon Trail (1938-S) Commemorative NGC MS-68 PCGS/NGC Population: 3/7
Gorgeous rainbow hues form a crescent of color on each side of this highly-favored design. The Oregon Trail is often considered the most beautiful of all Commems and this example surely won't disappoint its new owner **$2,950.00**

I wouldn't argue that I'm a coin collector at heart, but when it comes to business, I need to sell as many coins as I can.

That's why I like NGC Photo Proof. Photo Proof allows me to show my inventory to more clients than ever before-and that means I can sell more coins than ever before. As a coin dealer, that's the bottom line. I can use Photo Proofs to show my inventory at trade shows while the actual coins remain at my primary location, selling as they normally do. I can even send duplicate Photo Proofs to clients, using them to interest valuable customers in particular coins, or to entice them into collecting a different variety.

And collectors like the handsome presentation of Photo Proofs. Photo Proofs are four-page folders featuring digitized photographs of the subject coin's obverse and reverse and may include close-up detail photographs of unique aspects of a coin often related to its attribution or variety. Because Photo Proofs combine these exquisite photographs with fascinating tales of the coin's history, they will excite your clients to learn and collect even more. For a collector, Photo Proof is a great way to enjoy a coin; for a dealer, Photo Proof is a great way to sell one.

Photo Proof is available at authorized NGC dealers nationwide. For more information and your local dealers, call 1-800-PROOF67.

Your Vote for the ANA Board Counts!

The following candidates deserve your consideration. The officers of the American Numismatic Association guide your organization; make sure you elect Governors who will promote continuing growth of the ANA.

For President & Member of the Board of Governors: KEN BRESSETT

Ken Bressett has distinguished himself in numismatics as a collector, student, teacher, author and dealer. He has served the ANA on the Board of Governors since 1990, but his membership goes back to 1947 (and he has been a Life Member since 1962!). Over the years he has served on many ANA committees: Finance, Museum, Consumer Protection, Publications, Mediation and Education. From 1981 to 1988, Ken served as Director of ANACS and as the ANA Education Director. Ken was also General Chairman for the ANA's 1993 Early Spring Convention.

Ken's books include *Let's Collect Coins*, *Buying and Selling United States Coins*, *Collecting U.S. Coins*, *Guide Book of English Coins*, and *Complete Guide to Collectible American Coins*. Under his editorship or coordination can also be found *A Guide Book of United States Coins* and the *Official A.N.A. Grading Standards for United States Coins*.

Ken's goals for the ANA are centered on attracting new collectors to the hobby, and expanding the ANA's presence on computer networks. Ken wants the ANA to work closely with local clubs to grow the hobby, education for growth within the hobby, and consumer protection to insure longevity in the hobby.

For Vice-President & Member of the Board of Governors: ANTHONY SWIATEK

Anthony prides himself on bringing a fiscally conservative, businessman's perspective to the ANA Board. Anthony's dedication to the hobby is well-documented, as a Past-President of the Society for U.S. Commemorative Coins, and as a Life Member of the 1891 Club, AINA, CSNA (CA), CSNA (SC), FUN, GENA, MSNA, NASC, PNG, ANS, ESNA, NCMA, TNA, YNA among other organizations. Anthony's desire to expand the hobby is obvious from his status as the first dues paying male member of WIN!

A board member since 1991, Anthony has also served the ANA as an Instructor at ANA's Summer Conference, and as author of the Commemorative Coinage section of the ANA home study course. Anthony has also written for Coin World, COINage, Coins, and the CDN. He has won awards from the ANA, NLG, FUN, and others, including a Krause "Numismatic Ambassador". He has served on many ANA Committees, including Mediation, Authentication, Museum, and "Future of the Hobby".

Anthony shares in the desire to strengthen the hobby at the local level, with increased support for the representative programs, more conventions, greater budget support for education, and through a larger awards program.

For Member of the Board of Governors: HELEN CARMODY

There are candidates whose devotion to numismatics is apparent in so many ways as to make their reelection a necessity — and Helen Carmody certainly fits in that category. Her list of accomplishments is long and distinguished, a fact recognized by the 220+ clubs supporting her reelection. Helen is a member of more than 15 collector groups, including CSNA, CSNS, FUN, HSNA, NASC, NCNA, NLG, SIN, TSNS and WIN. She was a founding member of the Society for U.S. Commemorative Coins, has been a multi-term past president, and continues to serve as editor of its journal, *The Commemorative Trail*.

During her first term as an ANA Governor, Helen served as Chairman of the Membership Committee; board liaison of the Club Representative Program Committee; member of Ethics Committee; member of Long-Range Planning Committee; and as a club representative. Over the years, she has won many awards, including the Medal of Merit, Glenn Smedley Award, and Outstanding Regional Coordinator.

Helen continues to support greater member and club benefits, particularly the Cooperative Club Planning Program. She wants the ANA to stress collector education, and to be guided by members' input.

Long Beach Coin Show on Horizon Coins in Supply Despite Demand

As the market heads into the Long Beach Coin Show and the culmination of a 'month' of amazingly high auction activity, dealers continue optimistic. The overall market continues strong, and demand continues on both the retail and wholesale levels. Even with the growing demand, however, there is still an adequate floating supply of coins in the marketplace that is acting to hold price levels steady. Quality coins and specific demand may require buyers to pay more, especially in the sight-seen arena on the bourse floor, but between the bourse and the surrounding auctions there will certainly be no shortage of material to peruse. Since dealers often bring heavy inventory in the most popular areas, you can bet that there will be an abundance of Gold on the bourse.

The overall *CMI* reflects the growing strength of the market, as it has risen from the 683.56 level on March 31 to this *Bluesheet's* 686.24, a slow but steady gain. Over the last eight weeks, the individual weekly charts have increasingly benefited, as the growing demand rippled through the charts; the previous chart reflects those increases (+) or decreases (-) in their individual *CMI*s.

With the changes in this week's *CCDN* Mint State Gold Type chart balanced between advances and declines, you might expect the quiet to spread to some of the other charts. And it has, but just to show that life is never that simple, both Mint State Type and Proof Type are showing more advances than declines this week. Both Type charts had been slow to follow Gold's lead over the last two months, although dealers kept predicting that their steady results would give way to advances sooner or later. Most agreed that sooner was preferable, as a strong movement in Type would convince the "doubters" that a "serious rally" was underway.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are nea or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers and may fluctuat according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer–to–dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" – Lowest asking price during the week prior to publication (week old); "**m**" – Lowest asking price during the previous three weeks (month old); "**t**" – Trade during the most recent month; "**lm**" – Lowest asking price appearing *l*ast *m*onth; "**lt**" Trade appearing *l*ast month; "**ot**" Trade older than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight–unseen buy prices on the part of the highest visible bidder
In these cases, a more accurate reflection of a coin's true value may be found in the CDN albeit, on a sight basis

Long Beach to Set Summer Trend
Auctions Continue to Attract Demand

The Long Beach Coin Show has a few things in its favor. Let's see. Add one of the world's greatest gatherings of dealers plus one of the greatest gatherings of collectors plus fabulous auction opportunities plus an active and inventoried bourse plus a great location with good weather. Of course, with those ingredients, *anybody* could put on a fabulous coin show...

The final ingredient to a superb show is to have all of the above take place against the background of a strong market, and we have been watching the market strengthen for the last two months. A dealer friend predicted that "this Long Beach will be pivotal", and I suspect he may be correct. If dealers are able to turn their new purchases quickly, and retail demand remains strong, this has the potential to be the most interesting summer in many a year. Initial reports from the show indicate solid activity, but weaker Gold, so dealers will wait until Saturday to pass judgment on the show.

Auctions by Bowers & Merena presented their Kenneth C. Long Collection (May 26-27) to an enthusiastic crowd of Bidders, and by the time the gavel fell on the last lot, $2,553,433 in rare coins found new homes. Floor bidding was especially intense, as collectors and dealers competed to win the coveted prizes. As was anticipated, Gold was very strong, as were Silver Dollars (especially the Liberty Seated Dollar proofs). Among the highlights: (see chart at left)

The U.S. auction presented by Butterfield•Johnson•Gillio on May 30 confirmed the continuing strength in the market, with a total Prices Realized of $614,708 generated by over 150 Bidders. While Gold coins were much in demand, the Silver Dollars also seemed to enjoy that 'something special' that marks a hot market segment.

Lower Gold Puts Brakes on Rally
Solid Long Beach; Heritage Auction Glitters

Consistently good Long Beach Coin Shows are expected, but not to be taken for granted. Dealers were anticipating a spectacular Long Beach this time around, even if they were being strangely quiet about their predictions. Two months of growing strength in the coin market, driven by solid increases in Mint Gold, and helped along by rises in Dollars and Type Coins, promised a "really good" Show. Our CMI rose every week for more than two months, the longest period of consistent increases in years. Dealers were heading to Long Beach with intentions of buying and selling. Well, those who came to buy did not go away disappointed; sellers who were able to quickly react to the slight weakening in demand were able to succeed as well.

Then, the week before the Show, Mint Gold began to show indications that supply was adequate to demand; not a show of weakness, mind you, but more in the nature of a slackening of demand. Just enough to make dealers look *very* carefully at the market and their plans. Just as Mint Gold had driven the market upward, the lack of demand there began to ripple through the other charts. Just enough of a change to resurrect the old "just South of Steady" market description. In this week's Bluesheet, 98% of the Bids are steady; but the few changes are mostly declines, putting a negative 'spin' on the steady market.

Heritage Numismatic Auctions presented their $4 million Museum of Connecticut History Sale in conjunction with the Long Beach Coin Show, and the Gold buyers were out in force. Many of the lots, especially among the $20s, offered that special combination of rarity and quality that brings the big ticket regardless of the overall lethargy of the coin market. The advanced collectors that pursue these high-powered coins know that such opportunities come along rarely, and sometimes once in a lifetime. As the happy new owner of one of the 'better' Saints put it, "He who Bids last, Bids best!". Hard to disagree with a philosophy like that.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective (on one or both sides), with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

Buying Pressure Takes A Breather
Market Supply Adequate to Current Demand

Bid levels rise when the floating supply of a coin in the marketplace is inadequate to meet the existing demand. Bring sufficient quantity of the right coin into the market to balance the forces of supply and demand, and the Bid level will stabilize. Bring more supply into the marketplace than the demand can absorb, and the Bid level will decline. The coin market may not be a "perfect" example of the operation of an unfettered supply and demand marketplace, but it comes pretty close.

Add the adjectives 'floating' supply and 'current' demand and you come even closer. As we all know, there are far more collectors than pure investors in the coin marketplace. Many, no, ***most*** of those collector coins are tied up in long-term collections. A particular coin can rise 10%, 20%, or even 100%, and the collector who is working on that series or collection will not be interested in selling. Selling pieces out of the heart of their collection is not the way active collectors think. Conversely, dealers know only too well the lengths they may need to go to procure a coin with little-to-no floating supply, on behalf of a client. They may have to raise Bid substantially to entice a coin 'out of the woodwork' and into the floating supply; when they finally buy and that *current demand* is satisfied, they may be well above the second highest visible Bidder. Such sales of *rarer* coins always present pricing problems; the next coin *may* come out two months later and sell for less, or it *may not* come out for another two years and sell for multiples more.

For a little more than two years, we have been following the rising market in high-grade Buffalo Nickels. We've listed, we've charted, we've sliced and diced, and we've even caveated. This chart notes some of the highest percentage gains among the Buffalo Nickels since the beginning of 1995, along with the latest Population figures. As you might expect, many of the highest gains are to be found on coins with very low pops (one to three pieces); if your customers want to assemble the finest collection and need these rare pieces, you (and they!) will have to pay the price. On the other hand, some very handsome gains were made by coins with larger populations, where you stand an excellent chance of encountering pieces in the marketplace. When you see populations greater than ten or twenty, you know these are serious Bidders who want to *buy* a coin. Since the January 6, 1995 issue of the *CCDN*, the Buffalo *CMI* has increased from 891.94 to this week's 922.88, a rise characterized by sure & steady gains in individual Bid levels; you know a healthy market is operating, for some Bids also declined over the last six months!

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

There's only one...

There's only one Steve...

There's only one Steve Ivy, and as one of America's most respected numismatists, he is easy to find - on the bourse or at Heritage. But when you need to mail to him as well as the more than 5,000 other numismatists in America, you will quickly discover that

There's only one source...

There's only one source for the most complete, most accurate, and most up-to-date listing of dealers in America, and that's the **1995 Numismatic Dealer Directory**. Our current NDD list is available for rental, and at only $325, is well below the price normally charged for specialized lists. When you want to mail to every dealer in the NDD (or just the dealers in California, or the Mid-Atlantic states), you will soon discover that

There's only one practical way to mail...

There's only one practical way to mail to every dealer in the NDD, and that's to buy labels from the source. Why? We know how long it takes to type 5,000+ labels, but even more important, our labels will be up-to-date. We know how many changes occur *after* the NDD is printed, because we update our database every day! You want your mailing to be delivered, because returned mail generates no profits. And you can choose between First-Class and Third-Class mailing rates. Contact us for details.

"Steady Is as Steady Does" Discounted Sells Still Chipping Away

The latest changes in the *CCDN* show slightly more plus signs than minus signs, but the real story in the market is 'no story at all!' I don't think we need to expect any exciting screenplays on *this* market! The steady market is providing no real surprises, other than wondering whether Mint State Gold will be up or down next week - and that wondering is nothing unusual to the dealers who have been closely watching this volatility. For what it's worth, Gold is showing more declines than advances this week, but dealers seem to be taking these adjustments in stride. The big buyers remain erratic in their demand and buying levels, and the sellers have little alternative but to follow along.

In last week's *Bluesheet*, we looked at some of the leading Buffalo Nickels since the first *CCDN* of the year, and noted the role that population played. We now do the same for the Walking Liberty Half Dollars. The Walker *CMI*, since January of 1993, has been out-performing the overall *CMI*, although its performance has not been comparable to the energetic Buffs. Over the last six months, though, you would be hard pressed to find fault with the Walkers, as the *CMI* rose from the start of the year 752.46 to the current 764.10. Just "slow & steady" increasing Bid levels, helped along by a few powerhouses.

It is the powerhouses, naturally, that provide us with the most spectacular returns. While these "Leaders" are *different* from the hundreds of Walker issues whose Bids have remained steady since January, it may be instructive to examine what makes them *different*.

As is immediately apparent, these "Leaders" cover a wide range of populations and values; what they share, however, is their "Gem" appearance. The Walker market is rewarding excellence in condition, but the explanation is never that simple; other Gems have been steady or risen only modestly. And the ranks of Walkers turning in increases of 20-30% show plenty of MS61s, rising as generics! Bottom line, as always, is that it always is more enjoyable to buy winners, whether over a six-month period or six-year span. Short-term variability, however, shouldn't be a deterrent to the benefits of long-term collecting and investing.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are ne or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows, and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" - Lowest asking price during the week prior to publication (*w*eek old); "**m**" - Lowest asking price during the previous three weeks (*m*onth old); "**t**" - *T*rade during the most recent month; "**lm**" - Lowest asking price appearing *l*ast *m*onth; "**lt**" *T*rade appearing *l*ast month; "**ot**" *T*rade older than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions: "**oa**" - auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

"Why You Need the *New* PCGS Population Report..."

If you're an active participant in today's rare coin marketplace and an owner of PCGS coins, YOU NEED THE PCGS POPULATION REPORT. With this report, you get immediate access to one of the most influential numismatic tools available for gauging the value of your PCGS coins.

Every issue of the PCGS Population Report is an easy-to-use, finger-tip reference filled with valuable information compiled by the world's leading third party coin grading service, the Professional Coin Grading Service (PCGS).

Know More About Your Coins

More coin collectors, investors and professional coin dealers choose PCGS than any other third-party grading service in the world for the accurate grading of their valuable coins. In fact, PCGS has graded more coins than all the other grading services combined. Now, all this population data is available to you through the PCGS Population Report.

Benefit from New Features

Today, the PCGS Population Report is even better than ever. This guide has just been redesigned into a format that is even more valuable and "user friendly."

You now get population data every month for both circulated and uncirculated coins in the PCGS Population Report's new landscape format. Grades are now listed together from 1 to 70 every single month.

Quarterly reports (January, April, July, and October issues) contain census data for all U.S. coins, including patterns, modern issues, and territorial issues.

New columns, which include expanded mintage figures and grading totals, have also been added to make this reference guide even more useful.

The easy-to-read, step-by-step User's Guide helps you get the information you need from the PCGS Population Report. A comprehensive Glossary of terms is also included which defines abbreviations and individual characteristics of your coins.

Volatile Gold In Steady Market? Even "Steady Market" Shows "Lotsa" Changes

Will the real coin market please stand up? Since 1990, we have been talking about the lack of *conformity* across the charts within a generally *steady* market. What do we mean by that? We consistently call the *overall market* "steady;" that means that over time, we have a rough balance of advances and declines, and likewise that our Coin Market Index (*CMI*) is relatively steady. That definition of "steady" (even when it includes "just South of Steady") does *not* mean that there isn't plenty of activity in individual charts. How much activity? "Lotsa," according to many dealers - they just cannot predict where and when!

Indeed, that is the most significant aspect of the market over the last half-decade. There is plenty of activity seen from week to week, you just cannot predict the chart or the grades. One week MS63 Silver Commemoratives will be active, and MS65 Gold Commems dead; the following week, MS64 Gold Commems will soar along with MS65 Buffalo Nickels. The next week, some other grade in some other series will be totally steady, and still another grade on another chart will be active, and some other grade on some other chart will show discounted sells. Or this week, with minus signs dominating the Mint State Gold, Silver Commem and Morgan Dollar charts, plus signs are covering the Buffalo, Mercury, and Walker specialty charts, all in various grades. Overall, there are 20% more advances than declines, but that needs to be balanced against the *CMI* figures. Go figure.

And against this confusing pattern of modest increases and decreases is Mint State Gold Type, bouncing up and down like a man in a yellow rubber duck suit body surfin' in a hurricane. Whew! It would almost be amusing if so many dealers didn't have so many dollars invested in their Gold inventories. This 'up & down' activity is plain, old-fashioned short-term volatility - some caused by events within the coin market, and some without. The movements in the rest of the market aren't so much "volatility" as "pockets of activity," as one dealer phrased it. By and large, we have scattered increases set against specific discounted sells, which over time have ever-so-slowly eroded the *CMI* levels. Except for Buffalo Nickels, of course, which have consistently soared.

I think perhaps you can put your finger on this problem by trying to make a generalized statement about the market. *Any* generalized statement. Come up with something, and there are two charts and six other dealers ready to offer contradictory evidence. One dealer will complain of his worst year ever, while another brags of his best. One Gem sells for a world-record price, while another on the same chart fails to find any buyer.

Whether you find this market 'the best of times or the worst of times,' it's a great time for judicious buying, and collectors are making long-desired purchases at very advantageous prices. Dealers who "buy right and sell right" are turning lots of coins. And while most dealers would prefer more activity, there are also many who have never been busier. So what's a dealer to do? Use your best judgment in managing your inventory, paying careful attention to the demand areas and real demand levels of your customers to guide your buying. And your customers? Remind them that short-term volatility can be a real advantage when assembling a long-term collection; when the right coin appears at the right price, buy it!

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

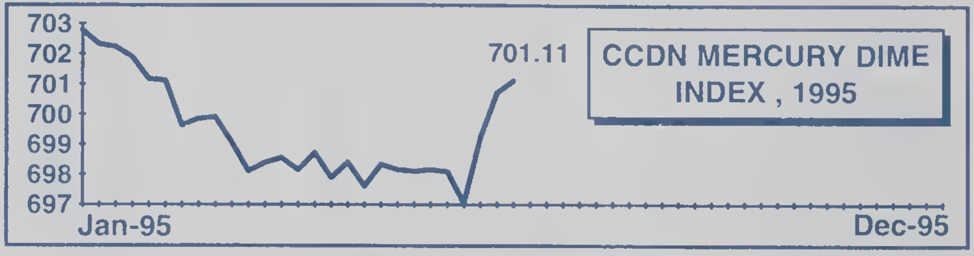
Mercury Dimes Reflect the Market
There's Steady, and There's Steady

In recent *Bluesheets* we've looked at some of the leading performers among Buffalo Nickels and Walking Liberty Half Dollars; these two series have both been solid performers since the beginning of the year. We have also looked regularly at Mint State Gold Type, which has been a very erratic performer this year, posting some very impressive gains and some disappointing retreats.

This week, we thought we might look at a chart that is more reflective of this steady market; a chart that was, well, *steadier*. And a chart that enjoyed periodic bouts of demand. Mercury Dimes, a favored collector series, came to mind. In the typical scaling of the *CMI* charts that appear weekly on the bottom of this page, a "steady" series traces a flat line. That is certainly not misleading, but as with most statistics, tells only half the story.

The Mercury Dime *CMI* has stayed within a very narrow range thus far in 1995. The Merc *CMI* started the year at 702.78, marginally slipping in 'fits & starts' to as low as 697.04 before returning to its current 701.11 level. This too is a very typical profile for a "steady" performer in 1995, with selected demand nearly balancing against occasional discounting. As steady as the Mercs have been, scale their 1995 graph to their 6-point *CMI* range, and the movements become apparent.

Looking at the movements of individual coins 'behind' the *CMI* naturally shows a similar pattern; as useful as the *CMI* is to dealers, we always need to return to individual coins. Comparing this week's *CCDN* to the first issue of 1995, 71% of the Mercury Dimes are Bid at the same level — now that's *steady*. Another 12% have risen, which is typical of selected demand; 17% have declined, again typical of the discounted selling we keep observing. We have a steady market, with 83% of the coins "solid", where the few changes *slightly* favor discounts over demand and put a *slightly* negative spin on the market. Nothing severe, nothing to headline, and nothing to offset the annoyance of the trend to inventory-oriented dealers.



As is typical of most charts in this 'steady' market, many of the coins that have advanced have posted very impressive gains, indeed! Among the leading Mercury Dimes since the beginning of the year:

Mercury Dime	Grade	1/6/95	7/7/95	change
1927-S	PCGS65	$800	$1,200	+50%
1936-S	PCGS65FB	$22	$33	+50%
1920-D	NGC65	$400	$600	+50%
1944	PCGS65FB	$30	$44	+47%
1936-D	PCGS64FB	$25	$35	+40%
1938-S	PCGS65FB	$60	$83	+38%
1937-D	PCGS65FB	$40	$55	+38%
1939	PCGS65FB	$80	$110	+38%
1936	PCGS66FB	$55	$75	+36%

Here, too, the Mercury Dimes are proving 'typical', with the advances showing a wide range of values. Perhaps the Mercs are 'atypical' in the heavier demand enjoyed by the Full-Bands coins; we don't see a comparable favoring of PL or DMPL Dollars for example. Perhaps this is a reflection of the lower premiums (due to larger Populations) accorded the FBs in the well-struck Mercury series.

Spectrum Numismatics International

The Recognized Leader In Classic Rarities

Is pleased to announce the acquisition of
the rarest obtainable Double Eagle

Presenting For Your Consideration

The 1861 Double Eagle Coronet Liberty Head, Type 1

America's largest and most popular circulating gold coin was the Double Eagle or $20.00 piece. These large exciting gold coins were created in the years of the great California gold rush. The statute authorizing the Double Eagle was passd by Congress on March 3, 1849.

The Type 1 or No Motto Double Eagles were struck at the Philadelphia Mint every year from 1850 through 1865; at New Orleans from 1850-1861, and at San Francisco from 1853-1866.

These early Double Eagles range from elusive to downright impossible. Among the great rarities of the series are the 1854-O, 1855-O, 1856-O, 1859-O and the 1860-O.

By far the rarest of all obtainable Double Eagles is the coin we offer to you now. The legendary 1861-P Paquet Reverse Double Eagle. This glorious coin is the finer of only two specimens known to exist; the other being a heavily circulated example. This coin exhibits amazing frostiness and has virtually no contact marks. Strike Doubling is evident on much of the Reverse as well as the Numerals 18 of the Date.

With a Pedigree that reads like a "Who's Who in Numismatics," its most recent auction appearance was as Lot 3984 in the famed Norweb Collection. Spectrum Numismatics is excited to add our name to this very important list of previous owners.

At this time, we would like to add your name to a very Prestigious Pedigree.

Steady Market Punctuated with Pluses
Peace Dollars Notably Strengthen

For a steady market, there sure are pockets of excitement. Other than Buffalo Nickels, that is, which have been, well, *steadily* exciting. Actually, there is an interesting similarity between the last two years of Buffalo advances and the 116 plus signs to be found on the Peace Dollar chart in this week's *Bluesheet*. In both cases, the advances show how much a steady market can be moved by the bidding actions of just a few dealers. It *almost* goes without saying that plus signs can result when just one dealer (or even better, a handful) steps out in front of the crowd - that is how market leadership is defined! And in a steady market, we appreciate the excitement that market leaders bring to the quiet party. And should you discover enough market leaders vying for leadership, you might also discover that a rally is underway!

This may also be an appropriate time to note that many of the advances in the Peace Dollars (as has also been the case with individual changes in the Buffalo Nickels) are relatively small amounts. That is entirely appropriate to a steady market — small advances that are 'sure and steady', and can only help solidify confidence in advancing levels. Dealers will immediately recognize that this 'two-sided sword of leadership' cuts both ways in a steady market — a few discounted sells will make a steady chart show minus signs.

A major difference between the one-week advance in Peace Dollars and the two-year advance in Buffaloes (other than the obvious time spans involved), can be seen in the accompanying chart. The biggest advances among the Buffaloes have come among high-quality, low-population pieces. The largest advances seen among the Peace Dollars over the past year (note that this chart compares current Bid levels with those from the July 14, 1994 *CCDN*) cut across Certification services, grades, and prices. Most of these 1-year advances, however, are on coins valued under $100; *every* numismatist can enjoy these potential profits.

Other solid performers in this *Bluesheet* are the specialty series. Buffalo Nickels are strong again. Mercury Dimes came in on the plus side. Walking Liberty Halves did OK. How did the greatest collector series do? Morgan Dollars were steady. Mint State Type and Proof Type charts are both solid with very few changes. Like we said, a steady market in the main.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective (on one or both sides) with less reflectivity than the deep mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

Every Numismatic Library
needs copies of the latest addition to the
COIN DEALER newsletter
family of publications:

the Backsheet

Now that we have your attention, we really haven't started an additional newsletter -- but your library should include **Back Issues** of our publications. Back issues are available two ways:

You can purchase small quantities to fill in missing issues, to obtain articles necessary for your research, or to follow your special interests. You may also combine your order for back issues of any of our publications to obtain the lowest price:

1-10 issues - $2.50 each • 11-25 issues - $2.00 each • 26 & over - $1.50 each

Or, you can purchase ***complete sets*** of back issues for really dramatic savings:

Complete set of the weekly **Coin Dealer newsletter** (*Greysheet*)
from June 14, 1963 to December 23, 1994, now includes 1608 issues.
At $1.50 each this would normally cost $2416, but a complete set is only .... $1550.

Complete set of the monthly **CDN Monthly Supplement** (formerly called the Monthly Summary)
from August 1976 to December 1994, now includes 220 issues.
At $1.50 each this would normally cost $330, but a complete set is only .... $225.

Complete set of the **CDN Quarterlies**
from January 1992, to December 1994, now includes 36 issues.
a complete set is only .... $30.

Combined weekly **CDN**, **Monthly Supplement & Quarterlies**
now includes 1864 issues, and extra savings at only .... $1700.

Complete set of the weekly **Certified Coin Dealer newsletter** (*Bluesheet*)
from August 22, 1986 to December 23, 1994, now includes 425 issues.
At $1.50 each this would normally cost $638, but a complete set is only .... $340.

Complete set of the monthly **Currency Dealer newsletter** (*Greensheet*)
from September 1980 to December 1994, now includes 172 issues.
At $1.50 each this would normally cost $258, but a complete set is only .... $150.

- For the most complete numismatic pricing library possible, you may order a **COMPLETE** set of all of the Back Issues listed above for only **$2100.**

ANA Coming to ANAheim
Steady Market Slows For Summer

We will be the first to admit that a steady market generates headlines like "Steady, Steady, Steady", which are guaranteed *not* to get anybody excited, excited, excited - except for one or two dealers who claim to have had enough excitement during the late 'Eighties "to last a lifetime". Most dealers are thankful for the steady market, as it gives them the opportunity to concentrate on customer needs and inventory structuring, instead of having to 'keep a constant eye' on market volatility. And yes, most dealers will also admit that they would like a market with more plus signs than we are seeing now, but they are also cognizant of the fact that they can often buy the coins they want and need without raising Bid. That in itself is a sign that current levels are acceptable to both buyers and sellers.

We are also hearing from dealers that they have noticed a drop in business levels since the Fourth of July holiday. One major dealer made reference to "a decrease in volume", while another mentioned a "slackening of sales". OK, if they don't want to use the "doldrums" word, I won't either. Every dealer we talk with, whether they are feeling the summer heat right now or not, is talking about the upcoming ANA. Now, every July every dealer talks about the upcoming ANA, but it seems to be happening a little earlier this year. Interestingly, many of the dealers are also talking about the ANA in terms of buying opportunities, and not so much about selling. This may be a sign of healthy Want Lists that will provide useful profits. Chances are pretty good that the ANA will attract enough coins to fill many of those Want Lists.

Another trend that we know will continue at the ANA is the inspection of coins on all but the most-generic of sales. Dealers and their customers are 'more than willing' to pay a premium for the opportunity to inspect coins before purchase. During major conventions, you can just-about forget the concept of sight-unseen Bids; the bourse is a sight-seen arena, and dealers will be oh-so-busy looking for coins that are attractive (and that will look equally attractive to their clients). And this holds true for the auctions as well, with long lines of potential Bidders waiting for a careful inspection of the auction lots; lot inspection is the icing on the cake of cataloguing.

Listening to dealers talking about their strategies for covering the maximum bourse area reminds us of one of the difficulties of working the bourse. Other than the hard floors. There may not be a greater opportunity for meeting new customers than at a major Show, yet the high costs and limited show lengths mean that a dealer has "to hustle". Many simply cannot find sufficient time to service customers as fully as desirable. Certainly not when the dealer is a one-man operation. Even worse is the problem of a collector *new to coins* coming to a Show in the hopes of getting a basic education from the dealers present. There just isn't enough time, and yet, such shows are a critical time for "turning potentials into customers". I'm not sure that there is a solution other than staffing your table with an able group of numismatists, or buying a very attractive "Be Right Back" sign. We are friends with one major dealer whose intention is *not* to work the bourse buying, but devoting himself to his table and selling; "customer service" means *availability* to this dealer.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Spectrum Numismatics International

The Recognized Leader In Classic Rarities

Is pleased to announce the acquisition of
the rarest obtainable Double Eagle

Presenting For Your Consideration

The 1861 Double Eagle Coronet Liberty Head, Type 1

America's largest and most popular circulating gold coin was the Double Eagle or $20.00 piece. These large exciting gold coins were created in the years of the great California gold rush. The statute authorizing the Double Eagle was passd by Congress on March 3, 1849.

The Type 1 or No Motto Double Eagles were struck at the Philadelphia Mint every year from 1850 through 1865; at New Orleans from 1850-1861, and at San Francisco from 1853-1866.

These early Double Eagles range from elusive to downright impossible. Among the great rarities of the series are the 1854-O, 1855-O, 1856-O, 1859-O and the 1860-O.

By far the rarest of all obtainable Double Eagles is the coin we offer to you now. The legendary 1861-P Paquet Reverse Double Eagle. This glorious coin is the finer of only two specimens known to exist; the other being a heavily circulated example. This coin exhibits amazing frostiness and has virtually no contact marks. Strike Doubling is evident on much of the Reverse as well as the Numerals 18 of the Date.

With a Pedigree that reads like a "Who's Who in Numismatics," its most recent auction appearance was as Lot 3984 in the famed Norweb Collection. Spectrum Numismatics is excited to add our name to this very important list of previous owners.

At this time, we would like to add your name to a very Prestigious Pedigree.

Certified Coins Highlight Auctions ANA Stands for Buying Opportunities

With August just around the corner, ANA looms ever-larger on the numismatic horizon. In last week's *Bluesheet*, we talked at length about the steady market and dealer strategies for the bourse. This week the market is just on the plus side of steady, and dealers are anticipating no changes for ANA; both buyers and sellers seem comfortable at current levels. One of the major sources for 'fresh' material in Anaheim will be the Auction block.

Heritage Numismatic Auctions' 1995 ANA Auction catalogue is out, and it is one of their heftier productions. Fine coins deserve expert cataloguing and photography, and this production has plenty of all three! While there is a nice-selection of World coins contained within its 400+ pages, there is no question that this is a sale for the collector of fine U.S. coinage. Being held August 16-19, lot viewing starts on August 10th! This material will draw a large crowd, so the best plan to see it all may be to 'look early, and look often'.

Among the coins combining abundant rarity and condition, there may be no competition to the Maxwell Trust's consignment of eight branch mint Morgan Proofs! In addition to more than 30 regular Morgan Proofs, and a nice selection of proof Seated Dollars! Included among the Branch Mint Proof & Specimen strikings: 1879-O PCGS Pr64; 1882-CC NGC Sp64; 1883-O NGC Pr64; 1883-CC NGC Pr64; 1884-O NGC Sp64; 1887-O NGC65; 1893-CC PCGS Pr61; 1921-S PCGS64. Other specialty offerings include 150+ pattern coins, and Harvey's Collection of Nevada State Currency.

Among the regular issue certified Gold in Heritage's auction, the following will be certain to attract spirited bidding:

1849 $1 Gold, No-L	PCGS64	1870 $5	PCGS Pr63
1855 $1 Gold, T.2	PCGS64	1871-S $5	PCGS61

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" - Lowest asking price during the week prior to publication (*w*eek old); "**m**" - Lowest asking price during the previous three weeks (*m*onth old); "**t**" - *T*rade during the most recent month; "**lm**" - Lowest asking price appearing *l*ast *m*onth; "**lt**" Trade appearing *l*ast month; "**ot**" *T*rade *o*lder than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" - auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

ANA: Auctions, Auctions, & More Auctions
Auction Houses Dominate Calendar

No, ANA does *not* stand for American Numismatic Auctions; it just seems that way! In last week's *Bluesheet*, we listed just some of the certified highlights from two auction sales: Heritage Numismatic Auctions' Official 1995 ANA Auction (being held August 16-19), and Superior Galleries' pre-ANA sale (being held August 13th). By no means is this the only 'auction action' to entice Bidders! Heritage Numismatic Auctions will also be holding *two* Bullet Sales, on August 11 & 15; Butterfield • Johnson • Gillio will be auctioning United States & World Coins, Medals, Banknotes, Gold Nuggets & Specimens on August 13; and Auctions by Bowers & Merena will be conducting their Rarities Sale on August 14. Near as we can figure, Aug. 12th is still open....

WHO IS THE KING OF THE CASH AND WHAT CAN THEY DO FOR YOU?

Spectrum Numismatics was formed in 1991, with a unique vision and a unique financial position. Most rare coin dealerships are small firms with a few employees and a limited amount of capital. In one regard, Spectrum Numismatics is like all other coin companies. Spectrum Numismatics has only 6 employees, but there's one way that Spectrum is unlike any other company in the coin business. The difference is that cash is never a problem for Spectrum. In fact, Spectrum Numismatics may be the best capitalized rare coin company in the history of numismatics. Spectrum is **king of cash**.

Since 1991, the Spectrum strategy has been very simple. Spectrum felt it could grow its business and increase its market share by taking advantage of its cash resources to always pay the most for rare coin deals that made sense. All it would take to implement this strategy would be world class rare coin knowledge and a ton of cash. Spectrum has both and because of it, Spectrum is becoming the biggest buyer of rare coins in the world.

Who is Spectrum Numismatics? Spectrum Numismatics is world class rare coin experts, unlimited cash resources, and highly efficient staff. The money man behind Spectrum is a name that is known by all in the financial circles of this country, but for purposes of the coin business, it's a name that by choice will remain anonymous.

The president and top rare coin expert behind Spectrum Numismatics is Greg Roberts. Although only 33 years old, Greg has been a major player on the national coin circuit for the past fourteen years. Since that time, Greg has personally purchased $183,285,000 in rare coins. In the process, he has handled virtually every coin in the book. The other world class experts on Spectrum's team combine more than 26 years of experience and over $72,680,000 in purchases of coins.

In just five short years, Spectrum has become the major buyer of ultra rare United States coins. But more than that, Spectrum has become perhaps the largest buyers of all rare coins in all price ranges. Let's talk about major rarities first. Here's a partial list of coins that Spectrum Numismatics has bought at public auction. In other words, this is a list of coins which Spectrum outbid every major United States coin dealer:

Coin	Grade	Date Purchased	Purchase Price
1894-S Barber 10¢	Prf-64	Aug. 1992	$165,000
1913 Liberty 5¢	Prf-64	Oct. 13, 1993	962,500
King of Siam Proof Set	Gem Proof	Feb. 2, 1993	1,870,000
1848-O $10 Liberty	MS-66	Nov. 1994	154,000
1876-CC 20¢	MS-65	Feb. 1995	99,000
1927-S $20 St. Gaudens	MS-67	June 1995	181,500

***It's very rare in the rare coin industry for coin dealers to say something nice about other coin dealers. Here are a few things that Spectrum's fellow coin dealers have said about the* king of cash.**

"I've known Greg Roberts for over 15 years. Greg and Thad Olson sold me Gem dollars and Walkers when they were kids in high school. I've been doing business with them ever since, Greg is my friend and I trust him. I buy a lot of coins from Spectrum and I sell a lot of coins to Spectrum. They're easy to deal with and their checks are alway good."

"I sell a lot of coins to Spectrum Numismatics. I've even had them help me with the financing on a couple of larger numismatic transactions. Spectrum is easy to do business with and they have a ton of cash."

John Dannreuther

Memphis, Tennessee

"I have always enjoyed very much the many transactions I have had with Spectrum! I heartily recommend Greg Roberts and his crew at Spectrum. Spectrum is just excellent to do business with."

WHAT'S IN IT FOR YOU?

Not everyone owns a 1913 Liberty Nickel or an 1804 Silver Dollar. In fact, the odds are that you don't own one of those great rarities. But if you're reading this ad, then there is a high probability that you do own some rare coins. You may have some Uncirculated silver dollars, some Uncirculated United States gold coins, some silver commemoratives, some type coins, some rolls of Mercury Dimes or Walking Liberty Halves and maybe even some rarer coins.

If you do, then you should know that Spectrum is the major buyer of that type of material, too. In fact, 98% of all the coins Spectrum purchases, are coins priced under $5,000, and 18% of all the coins that Spectrum purchases, are coins priced under $100 per coin! And you should know that if you have rare coins for sale, Spectrum wants to buy your coins and will probably pay you more than any other coin dealer in the world for your coins.

If you've decided that you want to trade all or some of your coins for cash, you should know that it's really easy to do business with Spectrum. If you have rare coins for sale, and you want to sell them for as much money as possible, then all you have to do is pick up the phone any weekday between 9:00 am and 4:00 pm California time and call the Spectrum cash line collect (714) 955-1250. Ask for Greg or Thad or Kerry and tell them you have coins for sale. Tell them you want to talk to the **king of cash**.

THE KING OF CASH *GOES TO THE ANA*

Spectrum Numismatics will be at the American Numismatic Association Convention August 15 to 19. Spectrum will be there for one reason and one reason only to buy as many coins as possible. Whether you have a 1913 Liberty Nickel or a 1938-D Buffalo, an 1804 Silver Dollar or an 1881-S Silver Dollar, if you have coins to sell and want to realize the highest possible price for your coins, then you should go to tables 322 & 324 at the ANA Convention. Tell them you want to speak to the **king of cash**

"Moving Coins" Heart of Steady Market
ANA Opportunities Abound

This could be a "Battle of the Titans". A "Test of the Heavyweights". And it will take place in ANAheim, not in Las Vegas. ANA Excitement versus the Steady Market. In one corner, we have the world-class Convention capable of generating and consolidating every last bit of energy and enthusiasm the market is capable of sustaining. In the other corner, we have the Steady Market, which has proven itself capable of sustaining only a modest level of enthusiasm. Dealer predictions are a definite "Maybe," or to be more specific, "depends which coins you're talking about."

Dealer success at this year's ANA will be judged upon "which coin market they are in." The last several years have demonstrated the difficulty of talking about ***"the"*** coin market, since the many market segments behave very differently. Predictions indicate greatest success for dealers selling quality (XF-MS65) coins valued in the $50-$1000 range; here is the strength of 'collector' demand. Dealers who carry specialty coins (Early American coppers, Overton Halves, etc.) have their own distinct clientele generating their own levels of demand, so these are also predicted to do well.

Dealers seem less certain about the market demand for Gems (MS65 & up), especially those 'valued above $2,500.' Many dealers will hold out for premium prices for their premium coins; others are more willing to negotiate. The collector/investor looking for such coins knows to "shop around"; there may be bargains on the bourse. As dealers know all too well by now, the market for 'ultra-rare' coins is even less certain. One week a "monster" coin will trade at a "monster" price; the next week, a similar coin will be sold at a perceived discount. Success in this market means matching inventory to customers. *Knowing where to go* with that special coin makes all the difference.

In keeping with the "Steady" tradition of our recent headlines, we thought to look at how Mint State Type Bid levels have done over the last year. Comparing the August 12, 1994 *Bluesheet* to today's issue, we find that slightly more than two-thirds of the Bids were either steady or have risen. Those declining (mostly due to discounted sells) showed an average drop of 10%, which certainly hurts in an inventory-based business. Collectors have responded to the lower volatility, with some enthusiasm for the occasional "bargain." Over the year, the Mint State Type *CMI* declined from 713.65 to 691.59, again a reflection of the discounted sells.

Among the advancing Mint State Type issues were some real winners, and many more modest winners:

Draped Bust 50¢, Sm Eagle	PCGS61	$44,000	$75,000	+70%
Draped Bust 10¢, Sm Eagle	NGC66	$45,000	$65,000	+44%
Indian Cent, CN	PCGS65	$1,300	$1,775	+37%
Barber Half Dollar	PCGS65	$1,750	$2,100	+20%

Lib Std Half-Dime, Legend	NGC61	$90	$105	+17%
Barber Dime	PCGS67	$2,600	$3,000	+15%

Grades from MS61 through MS67, and values from $90 to $75,000; makes it hard to generalize. On a hunch, we ran the average grades of the leaders, the steadies, and the laggards, and each was within a half-point of the *overall average MS64*. No information there either. Bottom line for dealers and collectors is that every coin has to be judged on its own merits, and the right coin at the right price will find a new home. Keep those coins moving!

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective (on one or both sides), with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

ANA in ANAheim at Last
Nation's Dealers at Door to Disneyland

Business on the electronic exchanges has been slow this week, and no wonder! The nation's leading dealers are all in Anaheim; the Pre-ANA Show was held last week in Anaheim, and many dealers arrived early for that event and getting a jump on lot inspection. Demand at these preliminary events reflects a market on the active side of steady.

The auction schedule has also been getting into gear. Heritage Numismatic Auctions started off their busy ANA schedule (2 Bullet sales plus their flagship Official ANA Auction) with their $220,223 August 11 Bullet Auction.

Highlights: Heritage Bullet Sale, Aug. 11

1804 Half Cent	PCGS65 B	$3,300
1876 Indian 1¢	NGC66 R&B	$743
1867 3¢ Nickel	NGC Pr66	$1,980
1913-S 5¢, T.2	NGC65	$1,540
1834 Half Dime	PCGS67	$9,900
1860 Half Dime	NGC67	$2,310

Superior Galleries' $1.5 Million pre-ANA sale on August 13th included many desirable certified coins:

Highlights: Superior Galleries, Aug. 13

1875-CC 20¢	NGC66	$11,550
1796 25¢, Br.1	NGC65	$66,000
1805 25¢, Br.3	NGC64	$14,575
1803 $1, B.7	NGC Pr65	$115,500
1810 $5, L.D. L.5	PCGS64	$17,325
1904 $5	PCGS Pr64	$14,850
1901 $10	NGC Pr64 Cameo	$16,500

Butterfield • Johnson • Gillio's sale of United States & World Coins, Medals, Banknotes, Gold Nuggets & Specimens realized $709,000; the abundance of dealers and collectors in town swelled the ranks of registered bidders over 150. Among the certified highlights:

Highlights: B•J•G Sale, Aug. 13

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current wholesale market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest [illegible] reported sight-unseen Bids, Asks, Trades prior levels and auction prices). The CCDn may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the wholesale levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

INVENTORY HIGHLIGHTS

1872 PCGS MS-65 (Rd) Indian Cent PCGS/NGC Population: 4/2
With the inception of third-party certification, this date has gained increased respect. It is the rarest coin to locate in Gem condition for the entire series. This example boasts pleasant salmon-red color and very clean surfaces **$9,450.00**

1909 VDB PCGS MS-68 (Red) Lincoln Cent PCGS/NGC Population: 1/0
The finest graded example of this first-year-of-issue. The technical perfection and dazzling eye-appeal that emanates from only the best numismatic specimens **$3,600.00**

1831 NGC MS-66 (Capped) Bust Half-Dime PCGS/NGC Population: 7/6
Brilliant surfaces with attractive gold accents along the rims and one of the best strikes we've witnessed on any Capped Bust example. Most likely one of the first coins struck from the dies **$4,250.00**

1923-S NGC MS-66 (Full-Bands) Mercury Dime PCGS/NGC Population: 1/1
An assortment of bright, beautiful colors encompass both sides of this contender for the finest known. We handle a number of high-grade, tough-date Mercury Dimes, so please contact us if we can provide you assistance in this area. **$6,250.00**

1860 (No Motto) NGC MS-67 Seated Quarter PCGS/NGC Population: 0/1
A highly attractive example of this difficult Type coin. Glowing, golden centers surrounded by concentric halos of rose, icy-blue and sea-green. Exceptional strike and lustre boost this example into the finest known category. **$12,500.00**

1947-D NGC MS-67 Walking Liberty Half PCGS/NGC Population: 0/3
Deep lavender and bright-orange & gold combine to form an interesting color pattern on the obverse while the reverse remained basically white. Awesome strike and virtual free from even the smallest of marks **$2,600.00**

1923-D PCGS MS-66 Peace Dollar PCGS/NGC Population: 7/3
Wonderful, fresh-mint lustre turns cartwheels on the snow-white surfaces of this elusive issue. Exceptional quality and easily justified at **$6,750.00**

Boone (1935/34) PCGS MS67 PCGS/NGC Population: 5/5
Struck to honor the great pioneer, Daniel Boone. Faint blue color evenly tones both obverse and reverse surfaces with some rosy-gold peeking from underneath. Worthy (and needed) by the finest collections **$1,750.00**

1911-D PCGS MS-65 $2.5 Indian PCGS/NGC Population: 6/3
The Key to the series with a mintage on just 55,600 (The next lowest mintage date, 1914, has 240,000)! Tied with the 1914-D for the lowest population in Gem (MS-65) condition. This is an awesome example of this classic rarity .... **P.O.R.**

1812 NGC MS-64 (Capped) Bust $5 PCGS/NGC Population: 5/4
An extremely elusive issue as a Type coin in high grades. PCGS & NGC have only graded a combined total of six coins in MS-65 condition for the entire Capped-Bust design. A slightly tougher date with all the eye appeal you could hope for **$21,000.00**

1931 PCGS MS-65 $20 Saint Gaudens PCGS/NGC Population: 7/4
Minted in one of the depression-era years which resulted in most of the original mintage being melted. An elusive classic befittting a remarkable Saint collection. Warm, glowing color, bold strike and all the lustre available for a Gem coin .... **P.O.R.**

THAT'S HOW MUCH MONEY THE KING OF CASH SPENT IN THE FIRST 7 MONTHS OF THIS YEAR.

DID *YOU* GET YOUR SHARE?

Spectrum Numismatics International, the buyers of the 1913 Liberty Nickel and the King of Siam Proof Set, have spent $24,116,737 purchasing rare coins so far this year.

As you can see, Spectrum has a huge appetite for rare coins. There have been 151 working days in the first 7 months of 1995. If you figure a work day at 8 hours, that means so far this year, Spectrum has spent $100,000 every 5 hours! Spectrum needs to buy *your* coins and is willing to pay *absolute top dollar.*

IF YOU WANT TO GET THE MOST MONEY FOR YOUR COINS... GO DIRECTLY TO THE SOURCE.

The amazing thing about the $24,116,737 worth of rare coins that Spectrum has purchased so far in 1995, is that only $868,203 were purchased directly from the public. If you want to sell coins to the *ultimate buyer,* if you want to get as much money as possible for your coins, then shouldn't you go directly to the source? Shouldn't you go directly to the **King of Cash?**

WHAT KIND OF COINS CAN YOU SELL TO THE KING OF CASH?

Spectrum paid $962,500 for the 1913 Liberty Nickel. And they paid $1,815,000 for the King of Siam Proof Set. But the facts are that 94% of Spectrum's purchases are for coins less than $5,000. And 18% of Spectrum's purchases are for coins less than $200.

While Spectrum is the nation's top dollar buyer of ultra rare United States coins, Spectrum is also the major buyer for moderately priced United States numismatic coins. Here's a short list of some of the items that **King of Cash** is currently interested in buying: Original BU bags of Morgan/Peace dollars, BU rolls of Walking Liberty 50C and Mercury dimes, ALL BU gold coins, pre-1916 Type coins in all grades, pre-1943 Proof coins and sets, and especially **COMPLETE COLLECTIONS!**

HOW TO CASH IN

If you've decided that you want to trade all or some of your coins for cash, you should know that it's really easy to do business with Spectrum. If you have rare coins for sale and you want to sell them for as much money as possible, then all you have to do is pick up the phone any weekday between 9:00 am and 4:00 pm California time and call the Spectrum cash line 714-955-1250 *collect.* Ask for Greg, Thad or Kerry and tell them you have coins for sale. **TELL THEM YOU WANT TO TALK TO THE KING OF CASH.**

Vol. X No. 34 August 25, 1995 Single copy price $4.00

Solid ANA Helped by Rush to Quality
1861 $20 In PCGS67 Brings $96,800

ANAs come, and ANAs go, and then we look forward to the next one; most are great, some are good, and only a few are best forgotten. The ANAheim Convention will be fondly remembered by most dealers, who rated it somewhere between "good" and "better" on the success scale. Traffic at the Show was a little erratic, with a few quiet mornings sandwiched in-between the more usual bustle. Dealers seemed a little surprised at the smaller size of the bourse; more than a few 'doubled-up' on the increasingly expensive bourse tables (is there a lesson to be learned here?). Other dealers demonstrated their strategy for a successful Show by taking multiple tables. When traffic was heavy, it was very heavy; on some occasions, empty chairs on the bourse were in short supply!

The most surprising aspect of this ANA, and one that left a few dealers shaking their heads over their inventory choices, was a strong demand for coins valued over $5,000. The "Super Gems" and the "*Rare* Coins" were actively trading at current levels; this seems to demonstrate that buyers and sellers have finally come together on opinions of value, and some very serious money expects these coins to be solid performers in the future. Some of the dealers who had been "holding out" for premium prices for their premium coins entered the fray, preferring "good checks over marketing strategy." The Show successfully combined 'Convention excitement' with a 'steady market', and then demonstrated real enthusiasm for a few market segments. Dealers who expected strong collector interest in coins valued up to $2,500 weren't disappointed, although the strongest demand remained for the collector coins below $500.

Highlights from Heritage Numismatic Auctions' 1995 ANA Auction could fill this entire publication. Total Prices Realized were reported as $7.4 million (with Heritage realizing an additional $600,000+ from their two Bullet Sales). The eight branch-mint Morgan Proofs consigned by the Maxwell Trust combined the ultimate in rarity and quality, and were a very nice complement to the 30+ regular Morgan Proofs. Included among the Branch Mint Proof & Specimen strikings:

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

MARKET LISTINGS

MARKET columns reflect the latest dealer–to–dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, coin shows and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it ha exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales–related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols. "w" – Lowest asking price during the week prior to publication (week old); "**m**" – Lowest asking price during the previous three weeks (*m*onth old); "**t**" – *T*rade during the most recent month; "**lm**" – Lowest asking price appearing *l*ast *m*onth; "**lt**" *T*rade appearing *l*ast month; "**ot**" *T*rade older than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight–unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis

MORGAN DOLLARS

PCGS DMPL and NGC DPL Bids are for fully Deep Mirror Prooflike coins. Bids for PCGS PL and NGC PL dollars (semi-prooflike or one-sided PL) will be listed monthly in a supplemental insert. CDN (Greysheet) Bids have always represented fully deep mirror prooflike specimens.

PCGS Condition Census

Do you own one of the finest known U.S. coins? Are you sure you do? Are you sure you don't?

THE OWNERS OF THE PROFESSIONAL COIN GRADING SERVICE ARE LONG TIME COIN MARKET VETERANS. We love rare coins. We love to buy them, sell them, grade them, look at them, and tell stories about them. But most of all, we love to do rare coin research. There's always something new to learn. It's exciting and interesting.

The owners of PCGS have written articles (Bruce Amspacher, John Dannreuther, David Hall, Gordon Wrubel), authored books (David Hall), and published newsletters (Bruce Amspacher, David Hall, Van Simmons) about rare coins. We have a lot of knowledge about United States rare coins. And we have a lot of friends who have a lot of knowledge about rare coins.

We want to pool our collective talents to undertake a research project that will have a profound effect on the way people think about rare coins. We want to build a **CONDITION CENSUS FOR ALL UNITED STATES COINS.** For those of you who are not familiar with the term, a condition census is a listing of the finest known examples of a coin or a variety of a coin. We want to construct a listing of the five finest known examples of every United States copper, nickel, silver and gold coin, including business strikes, proofs and all major varieties and encompassing all regular issues plus patterns, territorial issues and Early American coinage.

This is obviously a massive project. To accomplish this project, we need lots of help and we need to do it one step at a time. The first thing we've done is to recruit a condition census "Dream Team." The following world class rare coin experts have agreed to join with the PCGS owners to help PCGS construct the "United States Rare Coin Census":

"The Dream Team"

David Akers
Jack Beymer
Del Bland
Mike Brownlee
Jack Collins
Jeff Garrett
Ron Guth
Jack Hancock
Larry Hanks
Ron Howard
Don Kagin
Lee Minshull
Tony Terranova
Rick Tomasca

The first step we're taking is to construct the condition census for all copper, nickel, silver and gold regular issue United States type coins, i.e. a listing (including pedigree and sales history, where known) of the five finest known examples of every ***type*** of United States coin issued by the U.S. Mint. We will then publish our type coin census and hopefully be able to include pictures of the finest known example of each type.

Sound interesting? Want to help? If you know about any of the five finest known type coins or think you may own one, you can relay the information to the PCGS research team by contacting the PCGS Director of Research, John Dannreuther at 901-683-2492. By the way, the coins don't have to be PCGS graded. And if you don't want your name used in any of our published material, that's OK, too.

If you'd like one of your coins to be pictured as the finest known example of the type in the PCGS type coin book, then you should contact any of our Customer Service representatives at 800-447-8848.

If you'd like to see a list of what we consider to be the U.S. regular issue copper, nickel, silver and gold type coins, then call our PCGS Customer Service Department at 800-447-8848 and they'll send you a free list.

We're undertaking a huge project that should be of interest to all serious numismatists. We'd love to hear your comments. Write or call us anytime.

Proof Type & Walkers Long-Term & Short-Term Winners

Some weeks ago, we looked at how Mint State Type had performed over the previous twelve months. In this week's *Bluesheet*, we will take a similar look at the Proof Type coins, comparing prices from the Sept. 2, 1994 *CCDN* with those in this issue. The overall state of the Proof Type market over the last year may be summarized by looking at the *CMI* figures; one year ago, Proof Type stood at 706.13, while today it is 693.19. The same slow 'average' liquidation seen on so many other charts.

And, as is found on so many other charts, there is lots of individual good news to be found as well as the 'average' slight decline. For example, 71% of the Proof Type Bids have remained steady or have risen over the past year. That's fairly healthy. The average Proof63 is up 3.4%, while the average Pr64 is up 5.84%. That's pretty solid. The average decline in Bids was less than 2%. That's pretty steady. The following chart shows some of the leaders among the Proof Type coins. And they're pretty diversified: (see chart at right)

Just as we have had long-term winners among the Proof Types, we've also had some solid trading activity and short-term advances in the Walkers over the last month. Both at the ANA and the accompanying auctions, early date and high-quality Walking Liberty Half Dollars were proving again why they are collector favorites. Among the issues selling nicely above Bid at auction were many Gems, including MS65 examples of a 1916-D, 1916-S, 1927-S, & 1929-D; in MS64, a 1920-S, 1921-D and 1927-S.

CERTIFIED COIN DEALER newsletter

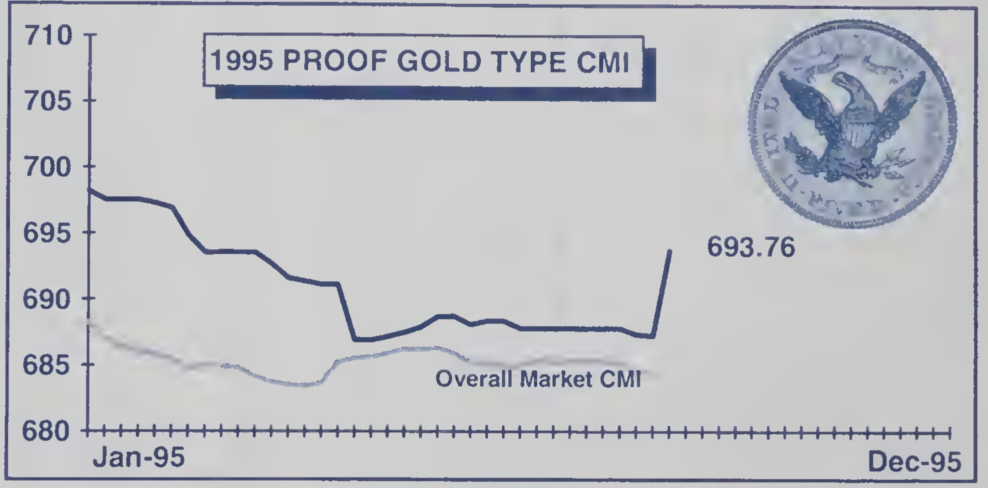
CCDN — a weekly report on the ***Sight-Unseen*** *certified market published by the Coin Dealer Newsletter (est. 1963)*

Vol. X No. 36 September 8, 1995 Single copy price $4.00

Gold Booms: Mint State & Proof Advances



The certified market may have been quiet last week, but Gold is currently making a lot of noise! In fact, 45% of all the Plus signs in this week's *Bluesheet* were produced by the Mint State Gold Type & Proof Gold Type charts. We've seen Mint State Gold bounce around from week to week, so plus or minus signs are not terribly surprising there; but as volatile as that chart is, the Proof Gold Type chart has been quiet. How quiet?

As can be seen in the 1995 Proof Gold Type *CMI* chart to the right, we have had to greatly change the scaling to avoid a 'flat-line' effect. Since January of 1995, the Proof Gold Type chart has showed some very slight declines due to discounted sells (much as we've found elsewhere). In one week, driven by more than 3 dozen advances, the Proof Gold Type *CMI* has regained more than half of the slight ground lost since January. Another week of advances like these and we will be in positive territory on the year!

A few thoughts about these advances. First, many of the Plus signs are the result of demand from a leading buyer. As mentioned last month, such coins were in demand at the ANA and trading strongly at then-current levels. When such demand continues, you can be sure that the forces of supply & demand will move prices higher. Even though the demand is being expressed by dealers market-wide, it is not unusual to find the plus signs being directed by a small number of dealers — that is one distinct definition of market leadership.

Secondly, while the overall number of Proof Gold Type advances is impressive, many of the advances are relatively small increments above last week's *CCDN* (most are less than 5%). This, too, is a sign of a healthy market; the leading Bidder can signal his desire to pay above market to obtain the coins he needs, but he doesn't need to be excessive about it! The trading we have seen indicates the agreement of Buyer & Seller on trading levels; as demand grows and supply shrinks, that agreement will be found at higher levels.

Thirdly, most of the advances in Proof Gold Type can be found in the Pr63 through Pr65 columns (with some above too!). As noted in the special 'graded' *CMI* charts that run in the first *Bluesheet* of each month, the strength of the certified market has been in the MS (or Proof) 61 through 64 grades. Frankly, Bidding on the MS65 & MS66 grades has been much weaker, as Buyers and Sellers have had some trouble coming to agreement over proper market valuations. Growing demand for the Gems is a significant indicator of strength.

In short, any advances in the Proof Gold Type chart are welcome, but especially so because of the strong demand seen for the Gem specimens. The overall market needs to strengthen on these grades as well if a serious Rally is ever to develop.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective (on one or both sides), with less reflectivity than the deep-mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

The 1996 Numismatic Dealer Directory

Your Listings Can be Free or FREE WHEELING!

We have begun preparing our 1996 Numismatic Dealer Directory, and as in previous years, you have a choice to make. Your listings can be free of charge, or they can be as free-wheeling as your imagination.

Start with your free listing. If you haven't been listed before, or have recently changed your address, fill in the form below. Our first mailing of confirmation cards will be coming soon.

YES, I WANT TO BE INCLUDED IN THE 1996 NUMISMATIC DEALER DIRECTORY__ please Initial

Want to be more Free Wheeling? In the Personal Listings, you can Bold your name for $10, you can print your name in Red or Blue ink for $10, or do both for $20! In the Company Listings, you can Bold your listing for $10, you can order Red or Blue ink for $10, or do both for $20; you can also put a box around your listing for $10, make that box Red or Blue for another $10, or add a specialty description at $10 for 55 characters. Call Shane Downing at 310-515-7369 if you have any questions.

Finally, it's time to think about display advertising in the 1996 NDD. Ads run from as low as $180 to $800, and if you order early, you have the benefit of doubling your advertising presence. Watch for your brochure and confirmation card coming soon.

NDD advertising works – year after year!

Long Beach Hard on ANA Heels
Auction Highlights Again Amazing

The coin market has remained steady following the flurry of excitement of the ANA in Anaheim, and dealers are anticipating an equally good show at Long Beach (October 4-8). Maybe even a better Show, because the 'Long Beach crowd' of regulars is used to the annoying problems with California taxing, and have long-known that the benefits of being on the bourse far outweigh the minor governmental inconveniences. In either case, Long Beach is certain to be strong in four areas: 1) dealers on the bourse; 2) collectors bargaining with dealers on the bourse; 3) over 'collector' coins; & 4) with plenty of fresh material from the auction action. Wow!

Another month of auction excitement is upcoming for collectors of certified coinage. Superior will be offering The October 3, 1995 Auction; specialists in Half Dimes will be excited by nearly a gross of high-grade lots (many of them certified), including the 1869-S from a four-piece presentation set. Dealers or collectors looking for Pan-Pac coinage will get to choose between a 5-coin set in frame, a 5-coin set in box, and a couple of 'spare' $50s!

Heritage Numismatic Auctions will be presenting two sales at the Long Beach Coin Show: a Bullet sale on October 4, and their "signature" Long Beach Sale on October 5-7. The signature sale features the Warren Miller set of $10 Liberty gold coins, and the word "impressive" falls short of describing this opportunity. With 165 different date and mintmark combinations, the collection provides proof of what can be accomplished given sufficient time, knowledge (including a sharp eye!), and resources. The old pedigrees, impressive as they are, will only be enhanced by these wonders having passed through the Miller Collection. I suppose I might also mention the many duplicates which will be adequate consolation for the unlucky bidders denied owning the 'finest knowns'!

The Certified Coin Dealer newsletter (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest [illegible] reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

CDN Wants You To Know

What The FTC Telemarketing Rule Means To You

YOU Are A Telemarketer If You Conduct Transactions Over The Telephone!

ICTA was one of only 20 industry and consumer protection organizations to be invited to attend the special FTC workshop on the new FTC Telemarketing Rule this past April. While you may think that your business is not a telemarketing operation, the FTC Rule covers both in-coming AND out-going calls. As a result, most of you will fall under the jurisdiction of this Rule.

The following summarizes much of the impact that ICTA and the business groups had on the outcome of the Rule which, if it had been enacted in its original form, would have severely crippled your business. The final Rule is one we can live with. Thanks, ICTA.

ORIGINAL RULE	**FINAL RULE**
1. Required written disclosure to be mailed, signed and returned to you BEFORE you could even ask for payment (for every order.)	1. Requires only verbal disclosure.
2. Tangible assets had additional information required in the written disclosure including your mark-up over cost, and what clients would get upon immediate resale of the merchandise.	2. This provision was eliminated.
3. You would be prohibited from contacting a customer until ALL terms and conditions of any previous trade had been completed, including shipping and receipt.	3. This provision was eliminated.
4. You would be prohibited from contacting a customer more often than once every 3 months.	4. This provision was eliminated.
5. You would be prohibited from providing for OR directing a courier (i.e., FedEx) to pick up payment from a customer.	5. You may provide for or direct a customer to use a courier as long as you have made the required oral disclosures.
6. Business-to-business transactions would require the same written and signed disclosure procedure as used for retail clients.	6. Only sales of non-durable office and cleaning supplies require verbal disclosure for business-to-business.

While the final Rule has a number of provisions with which you must be in compliance by December 31, 1995, this Rule, unlike the original proposal, is not overly burdensome or costly.

The original proposed 112-page Rule was published on February 14 and ICTA had only until March 31 to digest and officially respond in formal written comments. Obviously there was no time to do fund-raising in advance of incurring the necessary costs of professional legal counsel.

We all know that ICTA did not have the money in the bank before starting the project, and now the bills are coming due. ICTA got the job done. Now it's up to ALL of us to help pay the bills. Please see the form on the reverse of this page. Be generous—it's time to ante up for a job well done.

Please Help Pay Down ICTA's Telemarketing Legal Bills

It is not an exaggeration to say that the original telemarketing rule, as drafted by the FTC, would have virtually shut down your precious metals business and severely crippled coin transactions.

ICTA went to bat for the rare coin/precious metals industry and was instrumental in getting the FTC to re-draft the rule so dealers could live with it.

This effort did not come cheap. ICTA owes attorneys more than $75,000 for their excellent work. They need your help. Please contribute whatever you can, and get your colleagues to do the same. With a donation of $250 or more, you will receive the Telemarketing Information Kit that will be available within the next 30 days (you have until December 31, 1995, to comply with the new rule).

Thank you for any support you can provide.

WHO IS THE KING OF CASH AND WHAT CAN THEY DO FOR YOU?

Spectrum Numismatics was formed in 1991, with a unique vision and a unique financial position. Like most other coin companies, Spectrum Numismatics has a small group of employees - 6; but there's one way that Spectrum is unlike any other company in the coin business. The difference is that cash is never a problem for Spectrum. In fact, Spectrum Numismatics may be the best capitalized rare coin company in the history of numismatics. Spectrum is **king of cash**.

Since 1991, the Spectrum strategy has been very simple. Spectrum felt it could grow its business and increase its market share by taking advantage of its cash resources to always pay the most for rare coin deals that made sense. All it would take to implement this strategy would be world class rare coin knowledge and a ton of cash. Spectrum has both and because of it, Spectrum is becoming the biggest buyer of rare coins in the world.

Who is Spectrum Numismatics? Spectrum Numismatics is world class rare coin experts, unlimited cash resources, and highly efficient staff. The money man behind Spectrum is a name that is known by all in the financial circles of this country, but for purposes of the coin business, it's a name that by choice will remain anonymous.

The president and top rare coin expert behind Spectrum Numismatics is Greg Roberts. Although only 33 years old, Greg has been a major player on the national coin circuit for the past fourteen years. Since that time, Greg has personally purchased $183,285,000 in rare coins. In the process, he has handled virtually every coin in the book. The other world class experts on Spectrum's team combine more than 26 years of experience and over $72,680,000 in purchases of coins.

In just five short years, Spectrum has become the major buyer of ultra rare United States coins. But more than that, Spectrum has become perhaps the largest buyers of all rare coins in all price ranges. Let's talk about major rarities first. Here's a partial list of coins that Spectrum Numismatics has bought at public auction. In other words, this is a list of coins which Spectrum outbid every major United States coin dealer:

Coin	**Grade**	**Date Purchased**	**Purchase Price**
1894-S Barber 10¢	Prf-64	Aug. 1992	$165,000
1913 Liberty 5¢	Prf-64	Oct. 13, 1993	962,500
King of Siam Proof Set	Gem Proof	Feb. 2, 1993	1,815,000
1848-O $10 Liberty	MS-66	Nov. 1994	154,000
1876-CC 20¢	MS-65	Feb. 1995	99,000

WHAT'S IN IT FOR YOU?

Not everyone owns a 1913 Liberty Nickel or an 1804 Silver Dollar. In fact, the odds are that you don't own one of those great rarities. But if you're reading this ad, then there is a high probability that you do own some rare coins. You may have some Uncirculated silver dollars, some Uncirculated United States gold coins, some silver commemoratives, some type coins, some rolls of Mercury Dimes or Walking Liberty Halves and maybe even some rarer coins.

If you do, then you should know that Spectrum is the major buyer of that type of material, too. In fact, 98% of all the coins Spectrum purchases, are coins priced under $5,000, and 18% of all the coins that Spectrum purchases, are coins priced under $100 per coin! And you should know that if you have rare coins for sale, Spectrum wants to buy your coins and will probably pay you more than any other coin dealer in the world for your coins.

HOW TO CASH IN

If you've decided that you want to trade all or some of your coins for cash, you should know that it's really easy to do business with Spectrum. If you have rare coins for sale, and you want to sell them for as much money as possible, then all you have to do is pick up the phone any weekday between 9:00 am and 4:00 pm California time and call the Spectrum cash line collect (714) 955-1250. Ask for Greg or Thad or Kerry and tell them you have coins for sale. Tell them you want to talk to the **king of cash**.

THE KING OF CASH *GOES TO LONG BEACH*

Spectrum Numismatics will be at the Long Beach Coin & Collectibles Expo. October 4 to 8. Spectrum will be there for one reason and one reason only - to buy as many coins as possible. Whether you have a 1913 Liberty Nickel or a 1938-D Buffalo, an 1804 Silver Dollar or an 1881-S Silver Dollar, if you have coins to sell and want to realize the highest possible price for your coins, then you should go to tables 731 & 733 at the Long Beach Expo. Tell them you want to speak to the **king of cash**.

Gold Stars at Bowers & Merena Sale Bids Bouncing Back after Discounted Sells

Gold was definitely the star at Bowers & Merena's recently concluded $3.3 million auction of the Greenwald & Jackson Collections. Among the top 20 highest prices realized for certified coins, 19 were for Gold coins! The one exception? Not too shabby a coin, with just about as much history as any American coin: a 1792 Half Disme, graded as an MS60 by PCGS, realized $38,500. OK, maybe *more* history, and a worthy coin to be included in the finest collection. Activity by dealers and collectors on the auction floor was intense, reflecting the continuing popularity of the auction format.

Bowers & Merena Highlights:

Issue	Certified Grade	Price Realized
1900 $2.50	PCGS Pr67	$21,450
1888 $3	PCGS Pr65	$29,150
1879 $4	PCGS Pr64	$44,000

1915-S $50 Pan-Pac Round	PCGS62	$28,050

There has also been some interesting action on the electronic exchanges. We have been watching dealers raising Bid on coins that have recently traded at what looked to be levels that were simply "too low". Apparently, the market agreed with that assessment, and Bid levels have risen dramatically on some of these items (especially among the Morgan Dollars and Walking Liberty Halves.) As one dealer phrased it, this activity is a "little bit like closing the barn door after the horse runs away". We appreciate that sentiment, although we cannot entirely agree. Yes, the time to Bid on any item is not *after* one sells at a bargain price; it makes more sense to us to Bid *before*. Especially when the Bidder is willing to pay as much as 10% higher, as we have seen this past week! There are still many dealers who don't want to 'broadcast' their demand, especially when they are willing to pay at higher levels; the price for secrecy, though, can be watching someone else win the prize.

This is really the "flip-side' of our many discussions about discounted selling and its effect on the market. After all, a Bidder who is bidding at 10% or 20% under the 'accepted market value' cannot hope to win a coin unless someone sells either a nice coin at a discount, or an inferior coin. To the seller, the quick sale was obviously more important than spending the time or effort seeking out a higher Bidder. In defense of such actions, if the higher *potential* Bidder is hiding his interest, it's not exactly easy to find him! Since we have yet to meet a dealer who has enough time, the desire for a quick turn is certainly understandable. We do regret, however, the negative effect that a discounted sell has on the spirit of the market; but here, too, when Bid bounces back the following week, it provides both a plus sign and a strong indicator of market resiliency.

The staff at the *CDN family of publications* shares over a century of numismatic experience, and we have been through many a cycle. But even within those cycles (in fact, at *any* place within those cycles), you still see some coins selling "too cheaply" and others selling "above logic". Demand can be a tricky thing, especially when dealing with an item capable of inciting so many different emotions. What a business!

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest nationally reported sight unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists [illegible] and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin: listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**. During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" - Lowest asking price during the week prior to publication (week old); "**m**" - Lowest asking price during the previous three weeks (month old); "t" - *T*rade during the most recent month; "**lm**" - Lowest asking price appearing *l*ast *m*onth; "lt" *T*rade appearing *l*ast month; "ot" *T*rade *o*lder than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" - auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis

1995 AMERICAN NUMISMATIC ASSOCIATION PRESIDENTIAL AWARD

Presented to
MICHAEL R. FULJENZ

The American Numismatic Association Presidential Award is presented to Michael R. Fuljenz. An award-winning numismatist, Mike Fuljenz is relentless in his promotion of the hobby. From his "Market Forum" column for The Numismatist, which received a Numismatic Literary Guild award, to his numerous appearances at numismatic and financial conferences and on CNBC television's Smart Money program, Mike Fuljenz always seems to be on the go for numismatics.

A frequent and popular instructor at ANA Summer Conferences, Mike Fuljenz also has extended his expertise to the hobby as a contributor to many trade publications, including Coin Dealer Newsletter, Walter Breen's Complete Encyclopedia of U.S. and Colonial Coins, A Consumer's Guide to Coin Investment, the "Red Book" and the "Blue Book."

Formerly a grader with the ANA's Certification Service, Mike Fuljenz has served as president of the South West Louisiana Coin Club and vice president of the Society for U.S. Commemorative Coins.

Now therefore do I, David L. Ganz, 48th President of the American Numismatic Association, present the Presidential Award to Michael R. Fuljenz.

TERMS: 7 day unconditional return privilege, except bullion related items. All coins are certified by PCGS and NGC, unless otherwise noted. Payment by personal check, cashier's check, Postal Money Order or wire. VISA and MasterCard accepted, except on bullion related items. Please add $8.00 postage & handling on all orders under $1000. Overnight mail is available for an additional fee. Texas residents add appropriate sales tax. All coins subject to prior sale and/or price change until confirmed. Not responsible for typographical errors; call to verify prices. "The coin market is speculative and unregulated. Many areas of numismatics lend themselves to third party grading and authentication. Certification does not eliminate all risks associated with grading of coins."

PLEASE ALLOW 10 WORKING DAYS FOR CHECKS TO CLEAR.

Large Cents Another Long Beach Specialty More Heritage Auction Highlights

At the upcoming Long Beach Coin Show, Heritage Numismatic Auctions will be presenting two sales: a Bullet Sale on October 4, and their "signature" Long Beach Show Catalogue on October 5-7. Two weeks ago, we listed just a few of the highlights of the Warren Miller set of $10 Liberty coins from the Signature Sale. Naturally, in such an impressive auction, there are plenty of other certified coins for sale. Collectors of high-grade early Large Cents will also have plenty of attractive coins to pursue:

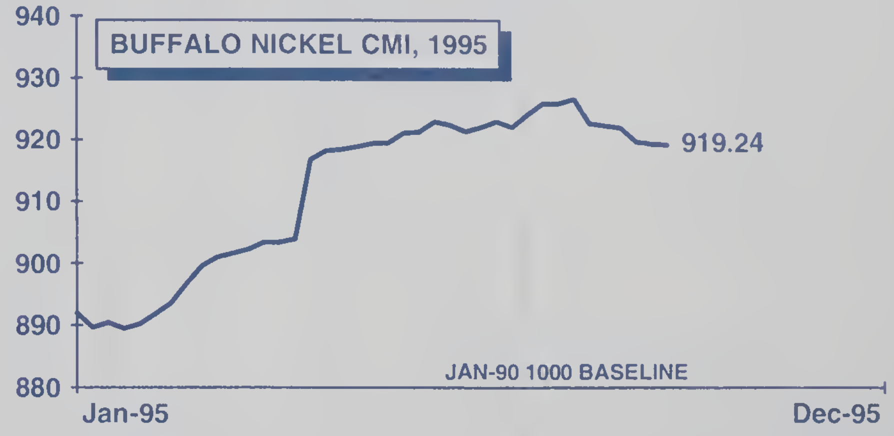
The October Long Beach Show, according to tradition (and many dealers!) is "the best" of the Long Beach Shows. Autumn is a 'good time' for rare coins, with vacations over, and collectors' attention redirected towards their hobby. Dealers know that the stronger the retail demand for coins, the stronger the wholesale activity, and the better the Long Beach Show. One dealer (jokingly, we hope) suggested that there was some sort of correlation between brisk temperatures and brisk sales; if true, we should be able to get additional confirmation from the handful of Alaskan dealers! Maybe the real answer is that Autumn is simply a neat time of the year, and a time when a man's thoughts turn to coins.



We haven't talked much about Buffalo Nickels lately. Bid declined on some selected issues last month, and the market has been quiet since. Since Buffaloes began their amazing climb in early 1993, the *consistency* of their advance has been a joy to behold. The Buffalo *CMI* climbed some 200 points over three years! We won't predict whether the slight slippage in *CMI* of late reflects a peak or just a temporary setback - over those three years, the advances were consistently interspersed with periods of quiet. Buffaloes might well come roaring back next week. We'll know more after Long Beach, when some very lovely pieces are sold at auction:

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.
